

# DELTRONIC CLASS X Gage-Banks

How you can specify your requirements for Class "X" cylindrical plug gages in a uniquely flexible gaging facility that may incorporate all related gaging equipment.

Orderly storage for related gaging equipment is provided by a variety of modular compartment trays.

Gage-Banks are the most convenient and flexible packaging for your Deltronic gage combinations. Ball-bearing drawers are designed so that modular inserts can be added for storage of other gaging tools along with the Deltronic "X" gages in the Bank. All cabinets are provided with a key lock for the best control of your gages. Any standard Gage-Bank can also be fitted with a mobile base or cart that will permit you to move it from department to department as your inspection needs dictate. The THS483-GB illustrated is priced at \$3,150.00 including the Stor-Drawer cabinet. Pricing is subject to cabinet availability.

## THE GAGE-BANKS

Deltronic GAGE-BANKS offer many alternatives for gage selection, control and distribution. In addition, GAGE-BANKS can be an excellent means of centralizing your gages with related gaging equipment (i.e. gage handles, collets, ring gages, etc.)

Each of the spacious drawers displays up to 252 gages in Gage-File trays, with individual sequence slots for each size-marked gage.

## PLANNING GAGE REQUIREMENTS

For your gage selection, Deltronic offers the world's largest in-stock supply of certified Class "X" cylindrical plug gages; every .0001" size from .0040" thru 1.0120" and .1000mm thru 25.7000mm in .0025mm increments in metric sizes. You can specify a Gage-Bank with all 20,322 sizes, or any range within those sizes, in any of the standard increments, .001" or .0005" or .0001" inch and metric.

Deltronic helps you to maintain the daily integrity of your Gage-Bank. When you need gage replacements or additions for your Gage-Bank, you can order with the knowledge that your local dealer stocks thousands of sizes and he's backed by Deltronic Same-Day Shipments for any of 20,322 inch and metric sizes!

## Special "Metric X" Gage Banks

What better way to have gages within comfortable reach? A metric gage-bank at your fingertips. Choose from a standard gage selection ranging from .1000mm up to 25.7000mm in increment choices of .0100mm, .0200mm, .0500mm .0050mm and .0025mm. These, as well as your choice of Non-Standard Gage-Banks are ideal for metrology, inspection and calibration labs where speedy accessibility of gages is required.
